FOREST FIRES IN NEW ONTARIO

HUNDREDS OF LIVES LOST AND SEVERAL TOWNS BURNED

The forest fire that has been raging in New Ontario the past few days has taken a terrible toll. Whole settlements are wiped out and nearly all the settlers lost.

Over 500 persons have been killed and nearly three million dollars of property destroyed.

The town of Matheson, which contained about 100 houses, was wiped off the map in 20 minutes after the citizens had worked hard for several hours in the woods trying to stop the fire.

It will be some time before the total number of deaths can be correctly given out but it is estimated that the loss of life will exceed at least 600.

MINERS ON STRIKE

The miners of District No. 18 are still on strike and prospects are not very bright for an early settlement.

The miners are demanding a 10 per cent war bonus.

Fernie and Michel B. C., and Kipp and Lethbridge are now affected by the strike and other places will soon follow.

There are 5,000 miners in the district.

THE DEUTSCHLAND LEAVES

EIGHT WARSHIPS WATCHING

The German submarine left Baltimore harbor on Tuesday for the return trip.

Just outside the three mile limit eight allied warships were spread out, watching for to get a chance to grab it.

DEATH

The death of Miss Alice G. Hayes, only sister of J. Augustus Hayes, occurred on Thursday afternoon August 3rd., at 2.30 at the home of J. A. Hayes.

Miss Hayes was stricken with a paralytic stroke, on Wednesday. Her death came unexpectedly. The remains will be taken to her former home at West Stafford Que., for burial.

The sympathy of their many friends is extended to the family in their bereavement.

LOST

Lost a saddle, on the 12th of July, on the trail between Monitor and A. Parks farm. Finder please notify A. Parks or News office.

WAR NOTES

The Russians have succeeded in cutting a way in between the Austrian and German armies and the Austrian army is in a position, between the Dniester and Lipa rivers, where they are practically doomed.

Kovel and Lemberg are said to have been evacuated.

On the Western front there has been little change made, and with the exception of a few local fights, things have been very quiet.

There are now 122 German divisions on the battle-line in the west, amounting close to 2,000,000 men.

The Serbians are making considerable headway against the Bulgarians.

British troops operating in German East Africa have taken the seaport of Pangania.

The Anglo-Belgian forces are making good progress in the Victoria-Nyanza Lake country.

The only reason which has so far prevented Germany from declaring war on Italy is a commercial treaty signed by both countries in 1904.

This treaty gave Germany the best of the bargain, and has always been thought of as being of the greatest importance to Germany.

General Count von Bothmer's army is reported to be almost enveloped by the Russians in Galicia.

Cossacks' divisions after the occupation of Brody, are said to have destroyed the railways behind the Austrians.

FOR SALE

House and lot in town. Will sell at cost. Apply at News Office.

LOST.

1 spur, crook neck, diamonds, hearts and clubs engraved on spur. Return to News office. REWARD \$2.00. W. MOOREHEAD.

Note and Comment

If a British warship attacked the peaceful merchant submarine Deutschland without warning, it would be "a cowardly and dastardly deed." Thus says Von Jagow, German foreign minister. Moreover, Jagow claims in behalf of the Deutschland "that she is entitled to be hailed, visited, and the crew placed in safety before she is destroyed—the precious rights which have been insisted upon for every merchant ship by our government." When we think of the Lusitania, Sussex, Falaba, Arabic, and many other such ships attacked without warning by German submarines, we are inclined to give the palm for impudence to this statement of Von Jagow. Even the German imperial chancellor has nothing on Von at that.

Switzerland's call to her citizens of military age who are residing in foreign countries to return home immediately looks like an indication that trouble is looked for in that country.

"While" one of our leading fishermen was indulging in a nap on the banks of the river," says the Whitsett Courier, "a hungry alligator crawled up and swallowed his boots. One of the bootlegs had a pint of corn liquor in it, and as an alligator was subsequently discovered trying to climb a tree, it is thought to have been the same one that swallowed the boot with the booze in it."

Canadian manufacturers have no cause to grumble at the war tax in this country when those British shipping firms are paying 77 per cent of their profits in taxes.

Miss Pansy Pyetin says that her idea of a mollycoddle is a man who acts bashful and waits for a girl to remember that it is leap year.

In England women are barred from practicing either as lawyers or barristers.

The colonies have shown far more gallantry in this respect, and in Canada, western Australia and India women are practising successfully as barristers. France has several distinguished women advocates and one judge. South Australia now leads the way in being the first of the dominions to appoint women as justices of the peace.

At a recent meeting of the National Live Stock Association the alarming decrease in the production of live stock in this country, was discussed.

In comparison with 1910 when there were 4,356,193 head of cattle in Canada, the amount had decreased almost one million by 1914. This had affected the price of beef cattle in no uncertain way, increasing the price from \$30 in 1910, to \$100 per head at the present time.

The decrease is attributed to the lack of pasture lands, as the west has been filled up with settlers and the former grazing lands fenced up.

The Germans still continue to sink a few trawlers and other small coastal freighters every week or so.

Barley cutting is now going on in several districts where the soil is lighter. Wheat harvesting will be general in these same places before the 5th of the month.

Where the land is heavier it will take about three to four weeks yet before the grain is ripe, but the warm weather this week is filling the heads fast, and will shorten the time.

The New York Sun says that mighty efforts have been made to wring the hearts of American people with yarns of Germany's starving children. And yet instead of milk and infants' food the first U-boat to reach our shores is to carry a cargo of nickel and rubber on the return voyage. Can it be that the gentle Teutons care more for their starving guns and automobiles than they do for their starving babies?

Posters have been pasted on the walls of barracks in Ghent stating that negotiations have been opened between the United States and Germany for the evacuation of Belgium.

According to the posters, Germany is prepared to move from Belgium, on the payment of 40,000,000,000 marks, only 8 billion dollars. The Echo Belge comments sarcastically on this proposal, terming the proposed indemnity "a mere flea bite."

From the looks of things at present on the German front they will not have much time to bother with indemnities on their way out of Belgium.

If we would fain economize,
It is by far the easiest way
To go ahead with measures

To chop some other fellow's
pay.

In a certain provincial town where everything is up-to-date and the people are always planning some new scheme, a shocking thing happened.

One of the popular society women announced a "white elephant party."

Every guest was to bring something that she could not find use for and yet too good to throw away. The party would have been a great success but for the unlooked-for development which broke it up.

Eleven of the nineteen women brought their husbands.

What is a Farmer?

Economical, Social and Educational Development Has Changed the Status of the Farmer

Every four years the farmer vote is counted on a speculative basis by the leaders of the contending political parties. They vary and conflict for the reason that they are based largely upon guess work, stale census statistics and a hit-or-miss conception of what a farmer is or is not.

In estimating the farmer vote en masse it has been the custom to include all males of voting age in the hamlets, villages and towns that are so-called agricultural centres. It takes in the banker-farmers, the lawyer-farmers, the doctor-farmers, the retired farmers, the merchant-farmers, the merchants who sell more or less exclusively to farmers; it embraces the drifting multitude of farm hands and tenant farmers, the loafers and ne'er-do-wells of the towns and villages; and in the enfranchised state it now includes the women farmers and the farmers' wives.

It is a vast conglomerate total, with interests as divergent and to a considerable extent as conflicting as are the interests of those who dwell in cities. Economic, social and educational development in the past decade has practically de-rurbanized the "rube vote," as politicians were fond of referring to it in the not so distant past.—Country Gentleman.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

"Pop!"
"Yes, my son."
"What is an end-seat hog the papers talk about?"
"An end-seat hog, my son, is the fellow who gets the seat you want your self."

During breakfast in a large munition factory on Chedoke street, every nationality is represented, a group of workmen were discussing Lord Derby's scheme and the different battalions which they would like to join. After various opinions had been given as to which was the best, Sandy said: "If ah hev tae join, gie me the Scottish Rifles." "All join the Royal Scots," said George. "Ah think them the best." "What about Isaac here?" inquired another workman. "Oh," replied George, "Isaac's gane to join the new battalion—the Jordan Highlanders."

A boy of tender years was returning from school—crying bitterly. "What ails you, my little fellow?" asked an old gentleman.
"I—I've lo—st the p—penny the teacher gave me for the best boy in the class!" sobbed the boy.
"Oh, well, never mind," said the old gentleman. "Here is another one that will take its place. But tell me, how did you come to lose it?"
"Cause I wasn't the best boy in the class!" sobbed the boy.

Instant Relief for Flatulence

Heartburn and Windy Spasms

The efficacy of Dr. Cassell's Instant Relief in these complaints will be a revelation to those who have hitherto trusted to blismuth or soda mixtures, or to old-fashioned liver pills and salts. The trouble is due to gas in the stomach or bowels arising from undigested food, and the natural remedy is to restore the organs to healthy action. Dr. Cassell's Instant Relief does that quickly, surely, and so it effects real cure where the old purgative preparations only weaken the system, and create the pill-taking or salt-taking habit.

Take Dr. Cassell's Instant Relief for constipation, biliousness, torpid liver, sick headache, dizziness, specks before the eyes, flatulence and windy spasms, acidity, heartburn, impure blood, and that dull, heavy feeling which is a sure indication of liver troubles.

Ask for Dr. Cassell's Instant Relief and take no substitute.

Price 50 cents from all Druggists and Storekeepers, Or direct from the sole agents for Canada, Harold P. Ritchie and Co., Ltd., 10, McCord-street, Toronto. War Tax's extra.

Dr. Cassell's Instant Relief is the companion to Dr. Cassell's Tablets.

Sole Proprietors: Dr. Cassell's Co., Ltd., Manchester, England.

Dr. Cassell's Instant Relief

A Monster Airship

Russia's Air Terror Could Easily Fly Across the Atlantic

The "Sikorsky" heavier-than-air machine is the biggest in the world, and belongs to Russia. Christened "Ilya Muromets" after a legendary hero in the middle ages—it is so large indeed that when in action men creep out along the wings and harass the enemy with its machine guns, for which there are swing rests like rowlocks fixed in all advantageous positions.

The machine will carry 2,000 lbs. of explosive shells. With a cargo of fuel, instead of shells, the inventor reckons that any of the average pilots could make a trip in it with comparative ease from Liverpool to the Belle Isle Straits.

The Russian in order to minimise the labor of the observer as much as possible, has taken a leaf out of the photographer's art book. There is a camera which fits in sockets below the machine and is controlled by a simple mechanism of clockwork. In this way the aviator, flying above the enemy's front, is able to take a continuous photographic record of the positions lying below him.

From these photographs intelligent guesses can be constructed, accurate maps of the enemy's line, and the positions of his batteries, etc., which, printed lithographically in various scales are used by the staff, and also in small, large scale sections, are sent to commanders of battalions in the front line so that they may know exactly what lies beyond that wavering hedge of barbed wire which is often as not as much as they can see of the enemy.

This is of course done in all armies, but the perfection with which it is done here is a further proof of the way in which Russia has progressed, instead of being broken by the strain of last year.

The Vicar (discussing the Daylight Saving Bill)—But why have you put the small clock on and not the big one?

Old Man—Well, it's like this, air grandfether's clock 'ave been telling 'is truth for ninety year, and I can't exactly what lies beyond that wavering hedge of barbed wire which is often as not as much as they can see of the enemy.

Gasoline Fires

Fire accidents and explosions of gasoline are usually the result of carelessness. Gasoline and things giving off gasoline vapors should never be brought into the same room with a fire, a stove containing fire, anything giving off sparks, where matches are or are likely to be lighted, or where smoking is done. The odor of gasoline in any room is a danger signal—"Safety first." Kerosene should never be put into the gasoline can. Kerosene in its own field will overflow in a dangerous way if the lamp can be filled perfectly full. Leave some empty space at the top. An oil fire cannot be put out with water. Sand, earth, flour or lime will extinguish it if the flames are completely covered. When a person's clothes take fire, wrap him in a carpet of blanket. Don't run to get water.

Mrs. Allen: "My husband says 'e is miserable all the day if he misses his muscular bath." Lady friend: "Fah! I dare say, 'n ordinary bath with soap and water would do him just as much good!"

According to Dr. Allison secretary of Ministry of Munitions, Great Britain is producing seven times more fuming sulphuric acid than it did when the war began.

Graft in Russia

A Country Where the Grafter Works in Daylight

Graft in Russia is on such a naïve vast scale that it becomes grotesque. The Russian representative of a foreign shipbuilding concern told me of a battleship which he personally designed for the Russian government in 1905. The plans were accepted, the steel contracts for an army of workmen assembled at Oleska, and in the course of time it was reported that the battleship was ready for launching. The Government personally broke a champagne bottle over her bow, and a month later she put to sea on her trial trip. Then news came that the battleship had sunk somewhere in the Black Sea. Someone was suspicious—and an investigation was ordered; and it developed that the battleship had never been built at all.

At the most serious epoch of the Russian retreat last summer, when whole divisions were annihilated because of the lack of ammunition for their cannon, I met an Englishman who had come to Russia three months before with a shipment of shrapnel. He said it was still at Archangel—because he would not bribe the railway and ordnance officials to ship it to the front—John Reed in the July Metropolitan.

I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best Liniment made.

ARCHIE E. LAUNDY.

Edmonton.

The production of shells in Great Britain is at a greater rate than Germany and Austria combined.

The Oil for the Athlete.—In rubbing down, the athlete can find nothing finer than Dr. Thomas' Eclectic Oil. It renders the muscles and sinews pliable, takes the soreness out of them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

A Poser for German Logic The logical German mind will find it hard to explain why British consols have risen 3/4 to 6 1/2 since the great naval battle that made Kaiser Wilhelm the "Admiral of the Atlantic."

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Tommy's Aunt—Won't you have another piece of cake, Tommy? Tommy (on a visit)—No, I thank you. Tommy's Aunt—You seem to be suffering from loss of appetite. Tommy That ain't loss of appetite. Wh't I'm sufferin' from, is politeness.

Minard's Liniment Cures Garget in Cows.

Only Going One Way

A German spy caught red-handed was on his way to be shot.

"I think you English are brutes," he growled, "to march me through this rain and slush."

"Well," said the "Tommy" who was escorting him, "what about me? I have to go back in it," he politeness.

The Vernacular A Chicago newspaperman tells of a communication from a newspaperman in Australia seeking information on certain points.

"Dear Mr. Editor," the letter ran, "in your paper, under the heading 'Election Returns,' appeared the following statement: 'As the count proceeded it became evident that Jones had been scratched repeatedly by the women voters.'"

"Inasmuch as the above situation is not clear to me, I beg to ask information on these points:

"Where was the count going?"

"Was he German?"

"What had Mr. Jones done that the ladies should desire to scratch him?"

This Has a Moral When the rich man brought his son for entrance to the state college he told the president he wished a short course.

"They boy can never learn all you teach here," said the father. "Can you arrange it for him so he'll go through quick?"

"Oh, yes," said the president: "he can take a short course. It all depends upon what you want to make of him. Whether you want to make an oak He takes a hundred years, but He takes only two months to make a squash."

Minard's Liniment Cures Distemper.

An army chaplain at the front came upon a sergeant and a small detachment who were trying hard to move a wagon which was hopelessly embedded. "Can I be of any service to you?" the benevolent chaplain asked. "Yes, sir," the sergeant replied. "You can best help us by making yourself scarce." "Making myself scarce," the clergyman repeated in surprise. "Yes, sir. You see, the men can't very well say to the horses what they'd understand when you're about."

"You vowed it would be your aim to make my life one long dream of happiness. And to think that I believed you!"

"That's nothin'. I believed it myself at the time!"

W. N. U. 1115

Rheumatism, A Sneaking Disease Has at Last Met Its Conqueror

Throbbing Muscles and Swollen Joints Made Well

RUB ON NERVILINE

Old age knows no foe more subtle, more unrelenting than rheumatism. At first only a grumbling, pain is felt. But, alas, it settles in the joints and muscles, and finally tortures its victims.

To-day the disease may be in the muscles of the back, thigh, shoulder or neck—to-morrow in the joints of the hand, toes, arms or legs it may work with redoubled force.

Whether the pain is constant or occasional, makes no difference to "Nerviline."

Because other remedies have failed, don't be discouraged. Nerviline has cured the worst of cases. It has brought health to those in the deepest

despair, has ended years of awful suffering for those who never hoped to be well again.

There is a marvellous healing power in Nerviline which it derives from the extracts and juices of certain rare herbs and roots. It attacks almost magically the awful pain that only rheumatism can describe.

Congestion is drawn out of the muscles, stiffened joints are eased and limbered up, the old time feeling of depression is cast off, and once again Nerviline brings the sufferer to buoyant, vigorous last good health.

Every home needs Nerviline, needs it for carache, toothache, headache, neuralgia, lumbago, sciatica, stiff neck, chest colds and sore throat. Wherever there is pain, congestion or inflammation, Nerviline will cure it.

Large family size bottle 50c; trial size 25c. all dealers, or the Cataract Co., Kingston, Canada.

Annihilation of Steel The present war is annihilating ten million tons of steel and iron annually. It simply drops out of sight—being sunk into deep water or blown to bits too small to collect. This is creating a shortage of steel and iron and forcing prices high. Whether the mine are not worked to full capacity in order to keep prices of stocks high, or whether there is an actual world shortage due to the tremendous demand for steel and iron in the great war, matters not so far as the conditions are concerned. This metal is scarce and the prices will stay high.

This concerns everyone because it will affect the cost of all hardware, building materials for all metal structures, and farm machinery of all kinds. Just make up your mind that prices cannot stay where they have been.

Scrap metal should be selling for better prices than formerly. Don't waste it by rusting away in a fence corner.

"I was at the big general stores in Market street the other day," said Shingereger Joe, "when the whole electric light apparatus went wrong and all the different department were as black as pitch."

"My word, what a bit o' luck!" chuckled his friend. "What did you get?"

"My beastly luck again. It's always dogging me. I was in the grand piano department."

Your wife seems to be busy these days. Yes: She is to address a woman's meeting.

Ah, working on her address? No on her dress.

Community Intelligence

In large cities the death rate from infectious disease has made a wonderful drop in the last fifteen years. City dwellers are patting themselves on the back and pointing rather scornfully to their country cousins who have had no such improvement.

They are saying now that all the typhoid fever comes from the country, reaching the city only when some vacationist brings it back or a dairyman carries it along his route.

In a measure their position is warranted, but it is not because of the superior acumen of the city man or the inferior intelligence of his country neighbor. It is simply because cities have been compelled to have boards of health, which have insisted upon water filtration plants, upon sanitation in all dwellings upon medical inspection of school children, upon sanitary disposal of waste and a score of other things against which the city man often protests, but to which he necessarily submits.

The remedy for country folk is to allow community intelligence to prevail over personal prejudice, and likewise to organize for rural health.

The best goal to work for is a full-time county health officer.—The Country Gentleman.

Canada's Open Door

We may take it that those of our people desiring the pleasure of travel by rail, steamer or automobile in Canada are at liberty to enjoy it whenever and wherever they may please, along the Great Lakes, the St. Lawrence River and Gulf, and the magnificent Saguenay and other rivers. They can come and go at pleasure amid the beauties and historic scenes of Toronto, Montreal and grand old Quebec, and through the great west of Canada, in the vastness of Manitoba, Saskatchewan and Alberta, the wonders of the Rockies and the natural parks, clear through to British Columbia, with its lovely city of Vancouver, and up into the Yukon country, Canada will welcome us with open arms.—Cincinnati Enquirer.

Warts are unsightly blemishes, and some are painful growths. Hollaway's Corn Cure will remove them.

Admiral Jellicoe has the nautical weakness for a macaw. When his flagship was commissioned at the beginning of the war, Lady Jellicoe suggested a cub-lion as his mascot. "No," replied the Admiral, "I'll stick to a fine old superstition, and have a black cat." The sequel was a run on the black cat, and it is said that now not a single specimen is to be found in Portsmouth.

Minard's Liniment Cures Colds, Etc.

In Brazil, where movie pictures are in evidence, the show is held out doors. Spectators sit under palms on moonlight nights, with gentle breezes blowing.

The Fine Flavour

the delicate taste of malted barley blended with the sweets of whole wheat—is sufficient reason in itself for the wonderful popularity of

Grape Nuts

FOOD

But it is more than delicious—it is the finest kind of concentrated nourishment to thoroughly sustain body and brain tissue—a food that benefits users remarkably.

A short trial proves.

Women Shipbuilders

Women in Dungarees are Building War Ships for Britain

Old men shake their heads, young men open their eyes, but the women, whom you can count in hundreds, go on working quite unaffected.

A writer, describing his feelings on seeing a woman ship builder, says: "We first came upon her as we steamed up to a destroyer to which the finishing touches were being imparted along the quays of a famous firm. On the deck stood two sturdy north country women, watching our oncoming whilst leaning gracefully, but with the true professional air, upon the handles of sledge hammers. One would probably have been wrong in deducing that those women wielded those weapons, for the shipyard firms keep a close watch over their women employees and seek to apportion their work so as to keep all physical strain within close limits."

The women were, however, assisting the men alongside whom they worked in their lighter jobs, and their comradeship in the workshop seemed of the happiest.

At a neighboring yard we had quite the pleasantest of shocks on stepping ashore. Arrayed in smart dungarees uniform with peaked cap, turned down collar, a well-defined waist encircled by a broad belt, a long tunic, and the usual turned-up trousers, stood a young woman, plump, of our arrival.

We might have passed the young woman without equal unconcern had not the noise of our approaching footsteps aroused the feminine curiosity. It was, indeed, a buxom, fair-headed girl who regarded us over her shoulders not in the least perturbed by the procession, of raised eyebrows which her appearance momentarily provoked. In the tour of this yard we encountered hundreds of her sisters, all most becoming in their unorthodox garments.

Thousands are Ailing From Constipation

No condition causes so many diseases as constipation. It not only prevents proper kidney action but causes Anemia, Stomach Trouble and Indigestion.

Why not use Dr. Hamilton's Pills and get cured? This excellent medicine restores normal bowel action in one night; thousands say so.

Just think of it! Your system will be pure and clear. You'll be free from constipation, your stomach, blemishless—in short, you'll have jovial spirits and perfect good health. Get a 25c. box of Dr. Hamilton's Pills today. At all dealers.

The Glorious Destroyers

No class in the fleet has done harder and more service than the officers and men of the destroyers, with whose magnificent courage the whole world is ringing. They fought the sea battles of the war, and in every thing that has been witnessed before in naval war. They gave themselves as a sacrifice for their country's cause. Most of the German losses in large ships appear to have been inflicted by them, whereas most of our losses were due to gunfire—as a part of our fleet was engaged with the whole strength of the enemy. Their glory can never fade but will be for ever an inspiring memory to all men of our race. The British Navy is still the very soul of Britain.—London Daily Mail.

Like a Grip at the Throat. For a disease that is not classed as fatal there is probably none which causes as terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally, though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful curative agent. It immediately relieves the restricted air passages as thousands can testify. It is sold by dealers everywhere.

Percy was gazing with dreamy eyes into the fire. "Ah, my darling," he murmured, "what matters it that sorrows and trouble must of necessity be lurking in the unknown future? While I am with you I think of naught but the present—the superbly beautiful present!"

"So do I dearest," said Annette. "But you'll take me with you when you buy it, won't you? Men have such queer taste in rings!"

On the completion of the war one of the most important links between Western Europe and the Near East will be the opening of the railway line to Greece—only sixteen miles in length—which will connect Paris with Athens. Sixty hours will be thereby gained in transportation to the East.

The commander of the Spitfire was wounded in the recent naval engagement and had a miraculous escape. While on his bridge a shell passed across his chest, and even touched the buttons on his uniform. The shell then struck the signalling apparatus, and carried it away along with two men.

"Look at me," exclaimed a lawyer warmly. "I never took a drop of medicine in my life, and I'm as strong as any two of your patients put together!" "Well, that's nothing," retorted a physician. "I never went to law in my life, and I'm as sick as any two dozen of your clients put together."

Our Commonwealth

"Commonwealth" is a better word than "Empire," and it would be well if "Empire Day" were called "Commonwealth Day." In this war, these great little islands are fighting with the might of the British Commonwealth. They are not fighting for conquest and aggression and domination, such as the word Empire has always connoted and always will connote. They are also fighting for the common weal of the Commonwealth of Europe against the military domination of the German Empire. Imperialism is the enemy. In order to beat Prussian Imperialism we must guard against our own Imperialists who do not understand what freedom means in Ireland or South Africa, although they profess to understand what it means in Belgium or Serbia.—London Star.

A CAUSE OF INDIGESTION

People Who Complain of This Trouble Usually Are Thin Blooded

This blooded people usually have stomach trouble, and seldom recognize the fact that thin blood is the cause of the trouble, but it is. In fact, thin, impure blood is the most common cause of stomach trouble; it affects the digestion very quickly. The glands that furnish the digestive fluid are diminished in their activity; the stomach muscles are weakened, and there is a loss of nerve force. In this state of health nothing will more quickly restore the appetite, the digestion and normal nutrition than good, rich, red blood. Dr. Williams' Pink Pills act directly on the blood, making it rich and vital, and this enriched blood strengthens weak nerves, stimulates tired muscles and awakens the normal activity of the glands that supply the digestive fluids. The first sign of improving health is an improved appetite, and soon the effect of these blood-making pills is evident throughout the system. The result is that what you eat does not distress you, and that you are strong and vigorous instead of irritable and listless. This is proved by the case of Mrs. J. H. Gerrard St., Toronto, who says: "About three years ago I was seized with a severe attack of indigestion and vomiting. My food would not turn sour as soon as I ate it, and I would turn so drowsy that sometimes I would fall on the floor after vomiting. I tried a lot of home remedies, but they did not help me. Then I went to a doctor who gave me some powders, but they seemed actually to make me worse instead of better. This went on for nearly two months and by that time my stomach was in such a weak state that I could not keep down a drink of water, and I was wasted to a skeleton and felt that life was not worth living. I was not married at this time and was surrounded by a family of children. I tried a lot of home remedies, but they did not help me. Then I went to a doctor who gave me some powders, but they seemed actually to make me worse instead of better. This went on for nearly two months and by that time my stomach was in such a weak state that I could not keep down a drink of water, and I was wasted to a skeleton and felt that life was not worth living. I was not married at this time and was surrounded by a family of children. I tried a lot of home remedies, but they did not help me. Then I went to a doctor who gave me some powders, but they seemed actually to make me worse instead of better. I was not married at this time and was surrounded by a family of children. I tried a lot of home remedies, but they did not help me. Then I went to a doctor who gave me some powders, but they seemed actually to make me worse instead of better. This went on for nearly two months and by that time my stomach was in such a weak state that I could not keep down a drink of water, and I was wasted to a skeleton and felt that life was not worth living. I was not married at this time and was surrounded by a family of children. I tried a lot of home remedies, but they did not help me. Then I went to a doctor who gave me some powders, but they seemed actually to make me worse instead of better. SOUNDING LAKE

An enjoyable dance was held last Friday at the home of Mr. H. P. Botting. A large crowd was present and fine music provided by Annonson Brothers.

N. DeLorme acted as floor manager.

Geo. McLean is rooting up about 60 acres of soil, with his gas outfit, for John Bowers.

We understand that N. DeLorme has at last located on a government claim, on the west coast of Sounding Lake, where he will take up his residence.

Many of the farmers are taking advantage of the high price of hogs these days and are disposing of their marketable hogs.

Harvesting started on Tuesday last when A.H. White commenced cutting his barley crop.

Wheat harvesting will be in full swing during next week.

A very successful dance was given by Mr. and Mrs. H. I. Muddle, on Friday evening, in the Horse Shoe Schoolhouse.

About 70 gathered for the dance and all report a good time. Music was supplied by Sam Lewis and W. Muddle.

HOW THINGS TRAVEL

A rifle ball travels 1,460 feet per second.

Sound moves 1,142 feet per second.

Light travels 192,000 miles per second.

Electricity moves 288,000 miles per second.

Scandal travels a million miles a minute.

Truth moves five feet an hour.

Ontario is sending two of her License Commissioners to the West to study the workings of the Liquor Acts in Manitoba and Alberta, also the dispensary system in Saskatchewan.

Ontario will be under prohibition on the 15th of Sept.

The Ontario License Board is to issue regulations to govern the hotels after prohibition is in force dealing with accommodation, cleanliness, service etc. They will be allowed to sell soft drinks and tobaccos, and there will be no restrictions in the hours of closing.

GET A TRANSFER

If you are on the Gloomy Line,
Get a transfer.
If you're inclined to fret and pine,
Get a transfer.
Get off the track of Doubt and Gloom
Get on a Sunshine train—there's room
Get a transfer.

If you are on the Worry train,
Get a transfer.
You must not stay there and complain;
Get a transfer.
The cheerful cars are passing thro,
And there is lots of room for you—
Get a transfer.

If you are on the Grouchy track,
Get a transfer.
Just take a Happy Special back;
Get a transfer.
Jump on the train and pull the rope
That lands you at the station Hope—
Get a transfer.

PROSPERITY

When man is poor, and wealth seems far beyond his hope and aim, he is so unobtrusive then, he makes a hit with fellow men. He sows his seed and mows his hay, and has a modest, winning way, and all his course of conduct shows he doesn't, fatuous, suppose that if from mundane scenes he'd drop the whole blamed universe would stop. He strives to earn his weekly checks, and is a credit to his sex. But when his eager, straining feet have landed him in Easy street, his head swells up, he chesty grows, and of his stake he brags and blows he sneers at men who have not grown as big a bundle as his own. He flaunts the package he has made, and keeps himself on dress parade, and loads his wife and silly girls with silks and clanking gold and pearls, till people wish he'd lose his roll and be the old-time simple soul. Prosperity, when it arrives, oft ruins good and useful lives. When Fortune hammers at our doors, it turns good fellows into bores.

WALT MASON

During the heat wave, which has been hovering over the East for about two weeks, hundreds of deaths have occurred, and the toll amongst children under five years of age has been very high.

In Montreal, 247 children died in two weeks. Quebec city reported 25 infants dead in one day. In New York and other large cities in the States, the deaths have been greater.

INFANTILE PARALYSIS

In the recent outbreak in New York, of infantile paralysis there has been over 6,000 cases with close to 1,100 deaths.

ANNUAL BADGER HUNT

Monitor's annual badger hunt was staged a few days ago and this years entry list was extra large. The various dog owners were very keen to try out their dogs on the "badger" and some very fine sport was the result.

Nobody was barred, whether their dogs were large or small, and this helped to keep the fun at the highest pitch.

BAGGAGE CAR DESTROYED

There was considerable excitement here last Saturday evening when the baggage car on the Lacombe train was completely destroyed by fire.

When discovered by the brakeman, it was too late to save the car, as the fire had gained to great a headway.

Several of the train crew lost their clothing etc., which were in the car. After considerable working around the car was ditched at the end of the Y and left to burn itself out.
